CIT 590: Fall 2019
Homework 1

HW deadline as per Canvas.

This homework deals with the following topics:
- math, data types, and strings

It's designed to give you practice writing Python and using Jupyter Notebook.

To complete the assignment:
- Download the provided Jupyter Notebook file from Canvas
- Answer the questions by writing code
- Submit your completed Jupyter Notebook file to Canvas

Evaluation

Correctness – 10 pts (.5 pt each)

Does the code work as expected? Did you answer the questions correctly?
